## Brief

- Cloud Security Architect focused on securing cloud, SaaS, and production environments.
- Hands-on background in designing and hardening cloud architectures (AWS, Azure, SaaS)
- Working closely with R&D, DevOps, and IT teams to improve security posture

## Professional experience

### **CloudEdge | Cloud & AI Security Architect | Petah Tikva, IL** **2024 - Present**

- Review and improve the security posture of customer production environments across multi-cloud
- Design security controls and architectures aligned with organizational risk and common standards.
- Lead security and governance aspects of AI/LLM-based solutions, ensuring security and data protection.

### **CloudZone | Cloud Security Architect | Tel-Aviv, IL** **2022 - 2024**

- Developed and implemented cloud security solutions for clients, to help achieve best practices.
- Regulatory compliance advisor, by conducting audits, implementing necessary controls, and guidance.
- Produced clear security documentation and guidelines to support ongoing secure SDLC and operations.

### **CloudZone | IT & Security Manager | Tel-Aviv, IL** **2021 - 2022**

- Managed cloud environments based on AWS include multiple SAAS solutions.
- Responsible for maintaining Linux servers, containers, networking, storage, and integrations.
- Developed and enforced policies for secure operations, ensuring compliance with industry standards.

### **Premazon - Benefit | IT & Sys Admin | Migdal HaEmek, IL** **2020 - 2021**

- Transfer and maintenance of servers and services to VPS cloud, enhancing security and performance.
- Implemented production floor computerization system, integrating data security measures.
- Optimized network security, introducing segmentation and secure access policies.

### **Machshava Tova | Technology Instructor | Yoqneam, IL** **2019 - 2020**

- Trained 15 'at-risk' teenagers in social and technological entrepreneurship at "Echo-Tech" project.
- Taught applications development using the MIT's App-Inventor tool and JavaScript programming.

### **Mind CTI | Senior System Administrator | Yoqneam, IL** **2017 - 2018**

- Managed a hybrid cloud environment, supporting 500 internal end-users across multiple geographies.
- Implemented endpoint security, threat detection systems, and regular patch management.

### **Dorix LTD | Technical support | Kfar Saba, IL** **2015 - 2017**

- Provided technical support for business customers, cloud-based POS systems and retail software.
- Ensured the security and reliability of systems operating on Ubuntu Linux, Apache, and MongoDB.

## Certifications

- **Cloud Security Knowledge V.5, CSA** **2024**
- **Professional Cloud DevOps Engineer, Google Cloud** **2023**
- **AWS Certified Security – Specialty, AWS** **2023**
- **AWS Certified Solutions Architect – Associate & Professional, AWS** **2022**
- **Okta Certified Professional & Administrator, OKTA** **2022**
- **MCSE: Cloud Platform and Infrastructure, Microsoft** **2016**

## Education

- **CISO (Chief Information Security Officer) & DPO (Data Protection Officer) | Bar-Ilan University** **2023**
- **B.Sc. Information System, Data Science specialty, Emek Yezreel College | GPA: 97** **2018 - 2021**
