Copositive and Completely Positive Matrices

By (author): Naomi Shaked-Monderer (The Max Stern Yezreel Valley College, Israel) and Abraham Berman (Technion — Israel Institute of Technology, Israel)

- This is a comprehensive book on copositive matrices and completely positive matrices.
- For copositive matrices this is the first of its kind (for completely positive matrices it is an updated version of the only book on the topic)
- On both topics it describes state of the art research
- Both authors are among the leading experts on these subjects
